

Certified Internal Auditor (CIA)

“CIA is enduring because it requires candidates to master the ability to identify risks, examine alternative remedies, and prescribe the best initiatives to control these risks. CIAs master auditing standards and practices as well as management principles and controls, information technology, and emerging strategies to improve business and government.”

said John J. Fernandes, CIA, Executive Vice President and Chief Operating Officer of The Institute of Internal Auditors.

What is CIA?

The Certified Internal Auditor® (CIA) is the only globally accepted certification for internal auditors and remains the standard by which individuals demonstrate their competency and professionalism in the internal auditing field. Candidates leave the program enriched with educational experience, information, and business tools that can be applied immediately in any organization or business environment.

Who should study CIA?

Are you a current/future internal auditor, or a manager gaining exposure and expertise in organizational risk management? CIA is the best choice and will serve you well your entire career - it is a proven path to business success within the internal audit field.
